

# Hardware

When it comes to manual gate hardware, Designer Gates only uses the best! Find below our most popular hardware items and brands. Talk the team about the hardware that will achieve the visual appeal and security you desire.

### Lokklatch Magnetic

Operates and locks from both sides without need for additional padlocks. Rekey by locksmith to match other keys.

### Lokklatch Plus

Operates and locks from both sides without need for additional padlocks. Minimalist front facing lock.

### Magna Latch

Comes in short or tall format. Tall format is pool compliant. Key lockable without need for additional padlocks.

### Truclose Hinge

Regular size (holds approx 30kg) or heavy duty size (holds approx 70kg). Self closing with adjustable tension.

### Q-Bolt

Quality drop bolt with polymer mounting system reducing mechanical wear to paint. Can be padlocked.

### Rebate U Groove Wheel

Sliding gate wheel rebated inside the frame to provide a minimal gap underneath the gate and a sleek design.

### Sliding Gate Lock

Manual sliding gate latch with unique Twistfinger design guarantees a perfect close and is key lockable.

### Through Post Gudgeon

Bolt through gudgeon able to attach to all post types. Able to be powder coated to match gate and holds up to 350kg.

# Powder Coating

## Colour Match or Make a Statement!

Choose from the wide range of Dulux Powder Coating Colours. As standard we offer the Duralloy® Solid Colour Collection. This includes the ColourSteel® range, allowing a colour match to your homes roof, window frames or garage door. Designer Gates uses a Dulux accredited supplier including a 10 year warranty from Dulux.

**Want Another Colour? Talk to the team!** This is not a full list but is a sample of popular colours. Dulux offers a wide range of colours and textures. Please do note that some colour choices do incur additional costs above those of the standard range.

Disclaimer: This colour gallery is intended as a guide only. Please talk to the team about advice and samples. Designer Gates reserves the right to change/delete colours without notice. Dulux warranty terms and conditions viewable on their website: [duluxpowders.co.nz/warranties/](http://duluxpowders.co.nz/warranties/)

# Design

Your gates are the first thing people see when arriving at your property - A first impression of style and security will make your property stand out from the rest.

The Designer Gates Team design and build gates to meet your specific requirements, adding value, curb appeal and security to your property.

By selecting a design that compliments your home and prevents unwanted visitors you add value to your property making it a smart investment choice.

Because we custom design and build gates we have a wide variety of designs, materials and finishings available. Our gates are constructed from steel, aluminium, timber and wrought iron components.

To start the design process take a look at our previous designs or provide a picture of your ideas and we can work from there.
